

LOCK'ER[®] DOWN

Security Products

Instructions for Model 3011 SUVault[®]

1. If you have a combination lock, it is easier to set the combination before installing the safe.
2. The bracket consist of two parts, the main mounting bracket and the bracket cover.
3. One each side of the rear seat is a stud with a nut holding the seat down.
4. Place the main mounting bracket over the nut and tighten the included nut over the stud with the bracket pointed directly forward.
5. Place the cover bracket over the main using the notch and tab to lock them together and place the safe over the 5/16" stud and tighten the included nut on the stud to securely mount the safe.
6. Enjoy your purchase.
